

# SPIDER-MAN

## IMPORTANT - READ THIS FIRST!

**AURORA**

Before assembling model, study sketch carefully.  
**Important**—Apply cement to inside surfaces only. Avoid getting cement on outer surfaces of model sections. Use cement very sparingly and avoid getting cement on hands, so as not to mar or smear plastic surfaces.  
**Do not hurry.** Work carefully and patiently.  
**Important Note:** Before proceeding to cement parts together, it is advisable to fit parts together dry (without cement) so that you may familiarize yourself with the parts and how they go together, also noting the points where cement is to be applied.  
 For best results assemble model exactly in the order indicated.

**This kit is molded of styrene plastic—Use only Aurora's Fireproof Styrene Cement and Aurora's Speed-Dry Enamel. Assure yourself of a perfect model every time!**

"THE ENAMEL WITH THE SPRAYED ON LOOK"

**SPEED-DRY ENAMELS** are AURORA'S REVOLUTIONARY NEW ENAMEL PAINTS developed after years of research especially for Plastic Models and other products of Wood, Metal, Glass or China.
